

BINGO Indoor Base

Indoor base with BINGO IUS seating system

The BINGO Indoor Base is especially designed to receive the BINGO IUS and XPS orthopedic seating system.

The BINGO Indoor Base offers height adjustment (8" height adjustment range) and tilt-in-space to accommodate most children's positioning needs.

The Indoor Base was designed with a wide base to offer a stable platform when in use.

Casters include easy to operate foot-brakes for securing the indoor base while in use.
