UP**

The Kids ROCK F.A.S.T. chair offers a complete seating and positioning system with many years of growth. All of this is packaged in a lightweight, easy to fold base with cool colors, lots of storage and user friendly features for the child and parent. By adding the revolutionary Reaction™ dynamic seating component, the child can extend and flex their body while maintaining proper positioning. Now, both the parent and child can be active while they explore the world around them.

## F.A.S.T.™ features:

- ✧ Easy, compact folding
- ✧ Lightweight
- ✧ Easily removable positioning shell
- ✧ Numerous positioning components
- ✧ Many years of growth
- ✧ All-terrain mobility
- ✧ Quick-release rear wheels
- ✧ 50° tilt-in-space (from 5° anterior to 45° posterior)
- ✧ Multiple hip angle adjustments
- ✧ Adjustable center of gravity
- ✧ WC-19 compliant transit option

**LOTS of GROWTH!**

Grows with child from infant to age seven.

Available with the Kids ROCK™ Reaction™ seating component

## Reaction™ features:

The Kids ROCK Reaction™ component allows the child to move into flexion or extension in the chair while maintaining proper positioning of the pelvis and therapeutic support.

- ✧ The REACTION™ component encourages active engagement with their environment and peers
- ✧ Promotes strengthening of upper and lower extremities
- ✧ The Reaction™ system accommodates up to 35° of hip and lower extremity extension
- ✧ Pivot points determined using pediatric anthropometric data
- ✧ Adjustable REACTION™ extension range and resistance
- ✧ REACTION™ movement can be disengaged at hip and knee with easy locking mechanism

Patent Pending

## Simple, yet precise positioning adjustment

### Positioning shell features:

- ✧ Anatomic Pivot Points
- ✧ Accepts numerous positioning components
- ✧ Single and independent foot bed options
- ✧ Easily adjustable. No tools required for major adjustments
- ✧ Adjustments can be made with the child in place
- ✧ Positioning shell easily removes from mobility base

### Seating system features:

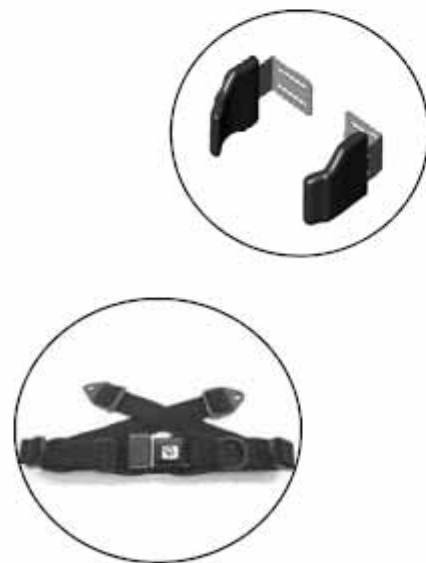

- ✧ **REACTION™** seating available
- ✧ Choose between planar or contoured configurable seating
- ✧ Contoured configurable seating includes positioning kit with wedges and contour pads
- ✧ Center of Gravity adjustment as the child grows

## Accessories:

## Secondary Supports:

## F.A.S.T. color options:

### Big Sky

Blue, Grey, Black  
with silver frame

### Bubble Gum

Pink, Grey, Black  
with silver frame

### Montana

Burnt Orange, Brown, Black  
with silver frame or special  
edition with gold frame

## What parents say...

"She's learned she can MOVE and AFFECT HER ENVIRONMENT. When she is in the Kids ROCK™ chair, she lights up and gets excited"

Lori Swenson, Mother & OTR/L

## What therapists say...

"Children who are 'locked in' seating systems tend to atrophy. A child cannot develop head and trunk control without the opportunity to MOVE! The Kids ROCK™ with REACTION™ seating allows the child to challenge and strengthen postural muscle groups as they flex and extend"

Cathy Mulholland, OTR/L

## F.A.S.T.™ specifications:

Mobility Base Specifications	
Transit weight limit	80 lbs
Overall width (with rear wheels)	24.5 in
Folded dimensions (rear wheels removed)	28 x 16 x 24.5 in
