

ADP APPROVED!

Two Great New Products

The Bingo™ and The Kids Rock™ Active

The **Kids ROCK™** Chair is a configurable Rehab Tilt Push Chair that is easily adjustable and offers multiple positioning components. Because kids love to move, *Kids Up Inc.* has designed the **ROCK ACTIVE™ Feature** that allows the seat to move *with* the child, helping them stay in the right position, no matter how active they are. When the child relaxes, he or she is still in the proper seating position, thanks to this revolutionary new technology.
