

R&M Health Care Inc. is excited to announce that the Flux Pediatric Posterior Walker is now available in Size 4.

February 2010 - The Flux Walker, now available in 4 sizes, can accommodate weight capacities from 132lbs. on Size 1 all the way up to 220lbs. on size 4. Handlebar height adjustment range now begins at 16" on the size 1 with a maximum of 43" on the size 4.

Barrier Free Design and sturdy lightweight frame construction allow for optimal freedom of movement and proper positioning over all kinds of terrain, with an astonishing load capacity.

The innovative reverse roll lock technology immediately locks the wheel as soon as the rear wheels start to roll backwards, and can be deactivated by the safety pin, allowing it to roll forward and backward.

The height and depth adjustable handlebars make it easy to adjust to different body types and growing children, and the handlebar with universal grips (optional) allows for grip width adjustments. The quick folding mechanism with safety lock allows for easy transport and storage. The Flux is available in 4 sizes.

Building on over 45 years experience in the home health care industry, R & M Health Care is committed to bringing the latest innovations in bath safety, seating and positioning and pediatric mobility to the Canadian market. R & M has formed partnerships with three of the industry's leading manufacturers and is able to offer a full line of products to fit the diverse and individual needs of your clients.
