HCPCS CODING: E2620/E2621
PLANAR WITH LATERALS

PRODUCT FEATURES

- + Lateral pads are constructed with moldable stainless steel and protective foam, comes standard with rigid hardware.
- + Lateral pads have up to 8" of width adjustment (4" per side) and 5" of height adjustment.
- + NEW: Inner zipper allows moldable stays to be removed - molded - replaced without having to remove the foam and cover from the backrest. All done while the user is seated
- + Moldable aluminum stays are offset from the center, removing pressure points from the spine.
 Patented Design #6,733,074
- + Pre-drilled holes in aluminum shell allow for mounting a headrest. See page 23.
- + Optional Swing Away Hardware available. See below.

COMPASS HARDWARE®

PATENTED #7,104,610

- Quick release feature allows backrest to be removed vertically within seconds.
- Refer to page 28 for additional details.

COVER OPTIONS

STRETCH-AIR FABRIC: designed for air transmission and heat dissipation. This breathable laminate combines a high-stretch polyester top layer with a waterproof, breathable vapor barrier.

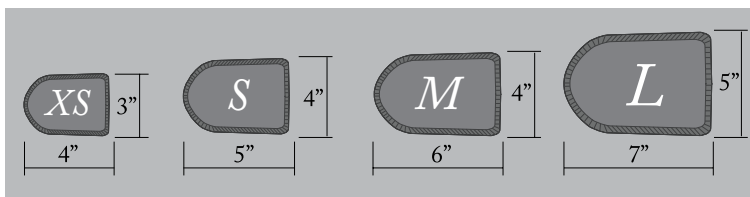

COMFORT-TEK FABRIC: the fluid proof exterior has supple leathery properties that provide an easily cleaned surface and protection for the inner cushion. Comfort-Tek has multi-dimensional stretch and helps alleviate pressure on bony prominences.

SEE CHART FOR DIMENSIONS

LATERAL PADS

- Maximum distance between the lateral pads is equal to the wheelchair width (i.e. 16", 18", 20").
- Minimum distance between lateral pads is 8" less than the width of the wheelchair.
- Lateral pads have 5" of height adjustment.
- Lateral pads are available in four different sizes (*Extra Small, Small, Medium, and Large*).
